To

The Secretary to Government,
Law Department, Bangalore

SIR,

I have the honour to enclose herewith a letter received from the General Manager, Mysore State Railways, Mysore, requesting the loaning of 9" pipes for water supply to Bangalore City Railway Station, out of the 9" pipes that are available at Chitaldrug belonging to Kathral Water Supply Scheme. As the pipes are not laid and as the General Manager wants them on loan to be returned as soon as the Bhadravathi Iron and Steel Works are ready to supply, I am of opinion they may be permitted to be made use of by the General Manager. When pipes are available at Bhadravathi for supply to the Railway Department, the pipes may be booked to Chitaldrug for delivery against the loaned pipes.

I request that you may be so good as to obtain orders of Government

I have the honour to be,

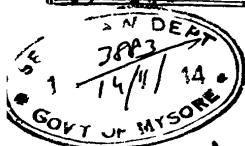

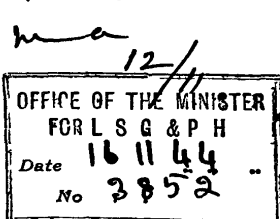

Sir,

Your most obedient servant,

S. S. Srinivasan
DIRECTOR OF PUBLIC HEALTH

A draft letter approving the proposal is being prepared

orders

The proposal may be approved as available pipes may be given on loan to be returned to the Railway Dept. for water supply.

9" Pipes for water supply to Bangalore City
Railway Station

I have the honour to state that the question of adequate
water supply to Bangalore City has been causing us some anxiety
as the pumps at Ulsoor Tank have deteriorated and the pipe line
is also badly incrustated, thus throwing a heavier duty on the pump
The M & S M Railway authorities have therefore expressed their
inability to meet our normal demand for water supply

Government have therefore accorded sanction to an estimate
for Rs 1 25 lakhs for laying a 9" C I main from the combined Jewell
Filters to Bangalore City Station for supplying unfiltered water
required for Loco and Traffic Purposes to enable the water supply
Department for arranging our supply in future

The work has to be carried out expeditiously to ensure
supply of water during the next summer and the water supply depart-
ment require urgently a supply of 15,000' length of 9" C I pipes
each 12' long

As the Mysore Iron and Steel Works who were addressed for
their supply have expressed their inability to comply urgently in
view of the Government of India orders for 4,000 such pipes, our
supplies cannot be expected earlier than March 1945 except for a small
number of pipes on hand with them now

I understand that about 5 miles of 9" pipes supplied by the
Mysore Iron and Steel Works for the Kathral Project (Cataldrug)
have not yet been laid and the work is not likely to be taken up in
the near future so that the pipes will not be required before March
next

As the situation at Bangalore City is acute and an independent
means of supply of water has to be ensured before summer months set in
I request you to be so good as to agree to spare us the required
number of pipes either on loan or for sale, as you wish. If on loan,

will be taken as a gift - the Government Steel works,
Chennai can begin to prepare this for us. On receipt of your
reply, the Chief Engineer, Mysore State Railway or the Executive
Engineer, Water Supply Division, Bangalore, will address you regarding
the exact requirements and particulars of booking etc.
An early reply is requested.
